

## **New France – The Seven Years War**

1. Study the painting of Wolfe's attack on Québec. Make three observations from the painting about his battle plan, explaining the evidence that you see.
2. The French seemed to be in the stronger position. They were in a walled city high above the river. The British were in ships on the river, and winter was approaching. Why, in your opinion, did the British win the battle?
3. Why were points 25 and 28 of the Articles of Capitulation so important? With a partner, discuss possible reasons why these two articles were granted by the British. Speculate how history might have unfolded had the Articles been denied.
