| a) Newfoundland | c) Hochelaga | e) St. Lawrence River |
| b) Stadacona | d) Lachine Rapids | f) Ottawa River |

2. On the same map, trace out the two routes Jacques Cartier took on his voyages (one path from 1534 and another two that were basically the same, in 1535-6 and 1541-2).

3. Make a legend so that others can differentiate the two routes.
